TERMS OF AGREEMENT

This transaction(s) is subject to the following terms and conditions as well as the terms of any agreements entered into between you (the client) and Wells Fargo Clearing Services, LLC and its affiliates (collectively, "we" or "us").

1. All transactions are subject to the rules and customs of the market or exchange and its clearing house, if any, where such transactions are executed and where appropriate, of the Financial Industry Regulatory Authority (FINRA), are subject to applicable tax withholding and reporting obligations, and construed in accordance with the laws of the State of New York.
2. Report any errors associated with this confirmation immediately. Failure to notify us in writing within ten (10) calendar days of receipt of this confirmation constitutes your acceptance of the transaction. Please retain this confirmation for tax purposes.
3. Remittance of funds or securities for this transaction is due on or before settlement date. If payment for securities purchased, or delivery of securities sold, is not received on or before settlement date, we may cancel the transaction and/or sell the securities purchased, or buy in the securities sold, and you will be liable for any resulting loss and not entitled to any resulting gain.
4. The time of this transaction, the name of the buyer or seller, and the source and amount of any commission or fee will be furnished upon written request.
5. We receive compensation for directing equity and option orders to national exchanges and particular broker-dealers for execution. In the event we receive such compensation, it may include cash payments as well as non-cash items such as discounts, reductions, or credits against fees that would otherwise be payable in full. The source and amount of any compensation will be furnished upon written request.
6. Open unfilled orders will be canceled before the opening of the next business day following the 180th day from date entered or the good-through date listed on the front of the confirm. Buy orders, sell stop orders and sell stop limit orders are reduced in price by the amount of the dividend on the day a security sells ex-dividend unless we are specifically instructed otherwise. Sell orders, buy stop orders and buy stop limit orders are not reduced in price when a security sells ex-dividend.
7. Transactions may have been effected through an affiliated market maker who may have acted as principal, have a long or short position in this security, and/or have a profit or loss in connection with this transaction.
8. Unless noted as principal we acted as agent. If noted as principal, we have sold to or bought from you and may have received a profit from the transaction and any amount provided in the CHARGE/COMMISSION field is a commission equivalent. Unless noted, we did not act as a market maker. For open end Mutual Fund transactions we may act as agent for your account through an arrangement directly with the fund company.
9. Other Fee may be one of the following: 1) The amount we charge on certain executed orders to offset handling charges or activity assessments incurred for executing orders; 2) Approximation of the amount we expect to pay FINRA, a foreign tax authority, the NYSE or other trade reporting market centers where the order is executed. We may collect more or less from you than we pay to market centers and the differences are retained or paid for by us; 3) Up to a 2% liquidity fee charged by a mutual fund complex when the money market fund's weekly liquid assets fall below 30% and where the money market fund's board determines the fee is in the fund's best interest; or 4) A mutual fund accommodation fee based on our current fee schedule. This fee may be avoided by purchasing directly from the mutual fund company.
10. Some securities may have variable coupon rates. Additional information related to calculations of the corporate debt security's interest and principal payments is available upon written request. Request must be made not later than six months from the date of settlement.
11. If a transaction indicates a foreign security, the purchase or sale of that security may have been made outside the U.S. in the currency of the country where it was executed. If the transaction was executed in a foreign market, our agent charges a fee to complete the transaction, and these fees are included in the price on this confirmation. Details of the currency exchange and any fees included in the price are available upon request. Also, the values of foreign securities are affected by changes in currency rates, foreign tax laws, government policies, relations between nations and trading, settlement, custodial and other operational risks. The costs of investing abroad are generally higher than in the U.S., and foreign securities markets may be less liquid, more volatile and less subject to regulatory and governmental supervision than U.S. markets.
12. Multiple Capacity indicates that the firm acted in a principal and agency capacity when executing the transaction. As a result, a reportable trade price could not be calculated. Information regarding the trade price, the capacity in which the firm acted for each execution and details regarding remuneration are available upon request.
13. Mark Up/Mark Down information is identified for certain trades in municipal, agency, and corporate fixed income securities, and is based on the difference between the price of your transaction and the prevailing market price of the security. Further information will be provided upon written request.
